

Plastics for Corrosion Protection and Prevention

Technology participants:

- | | | |
|----------------------|------------------------|----------------------|
| - Arkema | - Extrusion Plus | - TIAero (Brabender) |
| - Blackwell Plastics | - Great Western Supply | - Ticona |
| - Deep Flex | - Southwest Impreglon | - Vertec Polymers |
| - Evonik Degussa | - Smart Pipe | - Western Falcon |

*****Additional technology participants welcome \$50/table. Contact: Jeff Applegate 713 643-6577*****

Advancements in polymer technology for Corrosion Protection and Prevention

Speaker: Mr. Tom Baus, Market Development Manager, TICONA
 Tom Baus has over 25 years in the thermoplastic market with direct manufactures of high performance polymers. His expertise is in creating new market segments. Current responsibilities with Ticona include Market Development Manager for the oil and gas market segment representing Fortron® PPS. He has been with Ticona for the past 5 years. His experience includes market development management and sales management for 15 years with Shell Chemical in their Carilon® and Kraton® polymer businesses

Date: Monday December 8, 2008

Time: 11:30 a.m. – 2:00 p.m.

Location: Houston Engineering and Scientific Society
 HESS Club 5430 Westheimer Road, Houston, TX 77056

Register: **\$25.00** Lunch included www.spe-stx.org
